**What does it mean if I DO NOT allow access to information through *My Care Record*?**

Please discuss this with your GP surgery for further details. You can choose to object to *My Care Record*, it is your choice. Allowing access to your medical and social care information will make it easier to provide the best quality care and support for you.

It is worth noting that not sharing vital information about you with other organisations involved in your care could affect the quality of care that you receive. There may be circumstances where your objection may not be upheld. For example:

1. If it is in the public interest for data to still be shared. For example if there is a safeguarding issue, or in the case of an individual who might be at risk from harming themselves or a member of the public
2. If clinical care cannot be provided, for example GPs providing additional routine appointments at the weekend need access to your GP record to provide you with safe effective care. In this instance you may choose not to have the appointment.
3. Some computer systems cannot prevent the sharing of information between professionals. However, this information still remains confidential amongst the team of people that are directly caring for you.

**For any other partner organisations, please contact the organisation who holds the records which you do not want to be shared.**
